Dear Hiring Manager,

I am writing to express my interest in interviewing for the position of Web Application Developer. During my 3 years of experience as a full-stack Web Developer, I have developed both the functional and aesthetic components of client websites. I believe I can make an immediate impact on your organization with my unique blend of skills and passion.

My professional experience includes using programming languages such as PHP and JavaScript to create various features for client websites. I also have experience in developing and managing SQL databases. Combine this with my ability to thrive in a collaborative environment, and I think that makes me a perfect fit for Brick stone Digital.

Here are some highlights of my accomplishments as a Developer:

- **Now I am working on *Trust Innovation Limited (Bangladesh Army)* as a Full Stack Developer**
- **Still, *30-35* complex and dynamic web applications for different companies are running live. The application Documentation is done to me, which is stored in GITHUB.**
- **All the application which I have made are designed and database relation also made by me.**
- **Successfully collaborated and efficiently communicated with project stakeholders to bring their vision to digital reality**
- **Earned a Bachelor's degree in Computer Science from Daffodil International University**
- **Wrote code for various website functions using PHP, LARAVEL (framework), JAVASCRIPT, AJAX, VUE JS**
- **Tested and troubleshoot all Web functions to ensure the optimal user experience**

My extensive knowledge of programming languages, Computer Science, and the principles Development make me equipped to accelerate Brick stone Digital's progress toward their goals. I look forward to discussing this position further in an interview.

Thank you for your consideration.

Sincerely,

Md. Khasrur Rahman
